ABOUT US

Hey, don't just do business with us without knowing who we are, what we do, our business model, motto, mission, vision, values, objectives, goals, and legality. We appreciate it when you spend some time reading about us, thank you!

WHO WE ARE

Founded in 2019 by Andrew Williams, Sir Williams IT Firm is a registered IT company with its head office situated in Kampala, Uganda. The company was incorporated under the legal name of Wilowise Tech Limited and was approved by the Kampala City Council Authority with a license to operate as an IT Firm. Though the company is based in Uganda, Sir Williams IT Firm has over seventeen software engineers who are working remotely from seven countries including; Uganda, Kenya, South Africa, Indian, Morocco, UK, and South Korea.

WHAT WE DO

We live in a world where internet is oxygen and the importance cannot be ignored. Internet is the breath of the global economy. It doesn't just give life to the world's economy but also keeps it alive. It is also worth noting that despite the importance of the internet, it is consider by some as problematic especially for businesses. Things like cyber attack, system failure, etc make many to wonder if the internet is all that good. As an IT company, we believe that the internet is good and with our help, it can get even better for you and for your business. Sir Williams IT Firm majors in websites design, Android, iOS mobile applications development, and software management system. We manage business software system, protect businesses from cyber attacks, we provide hosting service, and we build internal IT infrastructure for businesses and education institutions around the world.

BUSINESS MODEL

What we do is what we love to do and that is to make individuals and businesses around the world inhale safely the oxygen that keeps the global economy moving, and that oxygen is the internet! We build websites, mobile applications, and management software for as low as anyone can afford! Our prices remain the same for all. We charge a fixed monthly subscription fee on all services.

Motto

The Future is now

Mission

Our mission is to build and develop affordable professional websites, mobile applications, and software management systems for individuals and businesses around the world.

Vision

Our vision is to create a secured internet world where people and businesses can interact with no sense of insecurity. We are looking forward to archiving that by building a highly secured website, mobile applications, and management software system for our customers that will bring trust and confidence to their users around the world.

Values

Our values run deep in our DNA. These values include;

- Professionalism
- Timing
- Trust
- Deliverability
- Customer orientation

Objectives

- Customer satisfaction
- Market share
- Social responsibility

Goals

- Growth
- Employee development
- Innovation
- Profit
